

**Unit 1 Money****Listening 1 p.8**

- Fred: Hi, Joan. Are you doing some shopping?
- Joan: Hi, Fred. Yes, I'm picking up a few things for my mom.
- Fred: Those are nice-looking apples. How much do they cost?
- Joan: These are 60 cents a pound.
- Fred: Those berries look tasty, but they also look very expensive.
- Joan: The berries are \$1.10 a pound. They come from Mexico. They are not often for sale.
- Fred: I just bought a candy bar. It cost 45 cents.
- Joan: You'd be better off buying an apple. It's better for you.

**Listening 2 p.9**

- Kay: Do you want to come to the movies with me, Annie? It's called "Aladdin" and it's supposed to be very good.
- Annie: I don't have enough money, Kay. I think a ticket costs 8 dollars. I have that but I need more money for popcorn and for the bus ride, too.
- Kay: We could go to the afternoon show, Annie. Then it will only cost us 5 dollars for each ticket.
- Annie: That sounds better. I have 8 dollars and 25 cents, so I'll have some money left over.
- Kay: If you come with me, I'll buy the popcorn. We could get two bags for a dollar each or get a bucket of popcorn for a dollar and 50 cents.
- Annie: Let's get a bucket. I'll buy us each a soda. They're 75 cents each for the large size.

**Unit 2 Place****Listening 1 p.16**

- Kris: Wow, Tim! This museum is absolutely huge!
- Tim: It should be, Kris. It's the National Museum. There are 3 floors in this building.
- Kris: It will take us all day to see everything. Where should we start?
- Tim: Here's a map. The "X" shows where we are now. I'd like to see the old cars and trucks. They're on the 1<sup>st</sup> floor just down the hall.
- Kris: If we go that way, we might as well stop and look at a few of the other things.
- Tim: It would be fun to see how people dressed 100 years ago. It looks like that is on the 1<sup>st</sup> floor as well.

## Listening 2 p.17

It's fun shopping for Christmas presents in a large department store. You can ride up and down the elevators. It's fun to watch the other shoppers. In most department stores you will find perfume and cosmetics on the 1<sup>st</sup> floor. The women's clothing is on the 2<sup>nd</sup> floor. To find the men's clothing, you have to go up to the 3<sup>rd</sup> floor. Children's clothing is up on Floor 4. It's always very noisy on the 5<sup>th</sup> floor. That's where all the toys are. The 6<sup>th</sup> and 7<sup>th</sup> floors have mostly furniture. Not too many Christmas shoppers go up there. There's a coffee shop and a place to relax on the 8<sup>th</sup> floor. That part of the store gets busier and busier as shoppers begin to get tired and want to rest.

**Unit 3** Weather

## Listening 1 p.24

Teddy: Have you been listening to the weather reports, Susie?

Susie: I have been, Teddy. Every day, there is a new hurricane in the Atlantic, or a tornado somewhere.

Teddy: Yes, and some places in Europe had a lot more rain this summer.

Susie: I hope they didn't have many floods like in Southeast Asia.

Teddy: I know.

Susie: I also heard that the ice in Greenland and the Arctic Ocean is melting pretty fast.

## Listening 2 p.25

Here's the latest weather report for those of you who are planning a trip. If you are going to South America, it will be sunny and hot in Rio de Janeiro, Brazil. Farther south in Santiago, Chile it will be much cooler. It is getting close to winter down there. If you are flying into Seoul or Tokyo, the weather is quite nice. Those who are planning to fly to London may have trouble. It has been very foggy there the past 3 days. It is expected to be foggy tomorrow as well. Some flights may be delayed. The weather in Germany is much nicer. It's sunny and warm in Frankfurt. It's warmer still in Athens, Greece.

**Unit 4 Feelings****Listening 1 p.32**

Andy: I said hello to Jimmy today and he just looked at me. He looked like he was mad at me.

Sharon: I know, Andy. He yelled at me yesterday. I asked him why he yelled at me and he just walked away.

Andy: He's been like that for over a week, Sharon. Something must be bothering him. He's usually nice to be around.

Sharon: Well, I'm not going to talk to him if he's going to act like that.

Andy: We should still be nice to him. If we yell back at him, he might feel even worse.

Sharon: I wonder if it has something to do with his mother. I know she's been sick.

Andy: That must be it! My mom says she's been in the hospital for the past week.

**Listening 2 p.33**

There are some foods that can make you feel happy or sad. Of course you don't want to eat food that makes you feel sad. What are some foods that would make you feel happy? It's best to eat healthy foods. You feel good when you're healthy. Carrots can make you happy. So can apples. They are very healthy foods. Ice cream is a happy food, too. How can it be a happy food? It's because it tastes good, and it is fun to eat. But if you eat too much, you might not feel well. Then you would not be so happy. To be happy, eat lots of carrots and apples and other fruits and vegetables. Eat ice cream only once in a while.

**Unit 5 Transportation****Listening 1 p.40**

Sharon: I won't be seeing you for a couple of weeks, Harold. We're going to Chicago.

Harold: Chicago? How are you going to get there, Sharon?

Sharon: We're taking the train. I'm so excited! I haven't been on a train before.

Harold: Sure you have, Sharon. You've taken the train to go downtown many times.

Sharon: No, this is a real train. I can eat and sleep on it for several days.

Harold: Why did you choose to take the train?

Sharon: Dad doesn't want to drive a car all the way to Chicago, and my mom doesn't care much for flying in an airplane.

Harold: My mother took a train to Los Angeles once. She said it was really fun.

## Listening 2 p.41

Bob: You like to travel, don't you, Claire?

Claire: Very much, Bob. If I had lots of money, I would travel around the world. There's so much to see.

Bob: I don't like to travel. I like to see different places, but I worry about too many things.

Claire: What do you worry about?

Bob: I worry about money and my foreign language skills. Also, I'm afraid to travel alone.

Claire: Maybe you should find someone to go with you.

Bob: Who do you think I should travel with?

**Unit 6** Vacation

## Listening 1 p.48

Jack: Have you ever been to Mount Rushmore, Tammy?

Tammy: No I haven't, Jack. Where is it?

Jack: It's in South Dakota. It's not far from the town of Deadwood.

Tammy: I've heard of Deadwood. We were near there a few months ago. But we didn't go to Mount Rushmore.

Jack: There are the faces of four presidents carved into the mountain.

Tammy: I've seen pictures of them. The presidents are Washington, Lincoln, Jefferson and Teddy Roosevelt.

Jack: It took several years to carve those huge faces into the mountain.

## Listening 2 p.49

Bobby: I hear you're going to Yellowstone Park, Diana.

Diana: Yes, we have it all planned out, Bobby. We're driving into Montana and going into Yellowstone through the north entrance. We'll be there next Saturday morning.

Bobby: Are you going to stay at the main lodge?

Diana: Yes, we are. It's a beautiful old building. It's right next to Old Faithful.

Bobby: Isn't that the geyser that throws up lots of water and steam every once in a while?

Diana: It does so about every 30 or 40 minutes, day and night.

**Unit 7 Volunteer****Listening 1 p.56**

- Amy: Hi, Jean. Carol told me that your sister is doing volunteer work.
- Jean: That's right, Amy. She works as a volunteer in a hospital.
- Amy: It's nice to volunteer to help others, but I don't know if I'd like to work in a hospital.
- Jean: My sister says it's not bad at all. She meets lots of nice people. She says sick people are always happy to see her. That makes her feel good.
- Amy: Well, it would be nice to help people and make them happy.
- Jean: You're such a nice person, Amy. You would make a wonderful volunteer.

**Listening 2 p.57**

- Mrs.: Johnny, I hear your father does a lot of volunteer work.
- Johnny: Yes, Mrs. Smith. My dad is a volunteer fireman.
- Mrs.: Does he just show up when there is a fire?
- Johnny: Yes. If he's near the fire station, he rides in the fire truck. Otherwise, he drives his car to the fire.
- Mrs.: Does he know something about putting out a fire?
- Johnny: Oh, yes! He has to do a lot of training, just like any other fireman. He knows First Aid and lots of other things, too. It takes a lot of his time, but he loves doing it.
- Mrs.: He's really nice! I'd like your father to come to school and tell our class about his volunteer work.

**Unit 8 Sports****Listening 1 p.64**

- Tess: Are you going to be on the basketball team this year, Johnny?
- Johnny: I hope so, Tess. I tried last year but I wasn't good enough to make the team.
- Tess: You were shorter last year. You've grown at least 2 inches.
- Johnny: Some of them are still a lot taller than I am, but I'm a much better player now.
- Tess: I know Earl will be on the team. He's the tallest of all the players.
- Johnny: He is, but he isn't very quick.
- Tess: Yes. Look at our girls team. They aren't very tall at all but they won the city championship last year.
- Johnny: They work hard to be good team players. That's what's important.

## Listening 2 p.65

Alice: Hi, Jimmy. It's me, Alice. I'm calling to see if you're going to play in the basketball game Friday.

Jimmy: I think so. My leg is much better now. The coach says I can play at least for a few minutes.

Alice: That's good. My dad can go Friday with me, and I know he'd like to see you play.

Jimmy: Does your dad really want to see me play basketball?

Alice: Yes, he likes you. He says by next year, you'll probably be the best player on the team.

Jimmy: Gee. I feel better already.

Alice: You have to be careful, Jimmy. I don't want to see you hurt your leg again.

Jimmy: I'll be careful. I just want to do well if you and your dad are going to be watching.

**Unit 9 Food**

## Listening 1 p.72

Carol: Hi, Don. My mom says I should be eating nutritious food.

Don: Your mom is right, Carol.

Carol: That's fine, but I'm not sure what I should eat. Do you?

Don: You should eat foods high in vitamins and minerals.

Carol: I thought all food has vitamins and other good things.

Don: Some foods don't have enough vitamins and minerals.

Carol: Mom says I should not eat so many salty chips. She says they are bad for me.

Don: I think we need a little bit of salt, but it's easy to eat too much of it. Too much salt isn't good for us.

## Listening 2 p.73

We are always told what foods are good for us. That is what we should be eating. We are also told what foods are bad for us. Those are foods we should not eat too much of. Good foods are called nutritious foods. That is because they have vitamins, minerals, and other things our body needs. We need them to grow big and strong, and to be healthy. Some foods taste good but do not have many vitamins. We can enjoy them but they don't really help us. For example, junk foods are bad for us because they have things which are harmful. They contain too much sugar, salt, or fat. Junk foods do our body more harm than good.

**Unit 10 Insects****Listening 1 p.80**

- Amy: There are a lot of bees in those flowers over there, Sam.
- Sam: I think they like the yellow flowers the best, Amy.
- Amy: I hope they don't come over here. We might get stung.
- Sam: Those are honeybees, Amy. They are busy gathering honey. If we don't bother them, they will leave us alone.
- Amy: I still don't like to be too close to them.
- Sam: If we didn't have the honeybees, we might not have flowers.
- Amy: That's right. I'm probably thinking about wasps. Wasps scare me.
- Sam: Not all wasps are bad, but some will sting you.
- Amy: Yes. Wasps are hunters. Honeybees die after they sting, but wasps can sting many times.

**Listening 2 p.81**

There are many different kinds of honeybees, but they are all insects. A bee will travel a long ways to find honey. A bee can fly about 6 miles without getting tired. It moves its wings about 200 times a second. That's why we hear that buzzing sound. A honeybee does not have a long life. It lives for about 6 weeks. However, a queen bee lives for two to three years. The queen bee can lay over 2,000 eggs in a day, so there are always plenty of bees in a hive. Honeybees do a lot of good. It would be a very different world if we did not have them.

**Unit 11 Culture****Listening 1 p.88**

- Boy: Spain is a neat place to visit. They have some strange customs there.
- Girl: What do you mean by strange customs?
- Boy: Spain is famous for bull fighting. And once a year, they have a custom of letting bulls run through the streets.
- Girl: Do the bulls chase people then?
- Boy: Yes. Men and boys run ahead of the bulls. They try to see how close they can get to a bull without getting hurt.
- Girl: I don't think that's very smart.

## Listening 2 p.89

- Girl: My brother was in Spain during his vacation this summer.
- Boy: Did he like it there?
- Girl: He did, but he said he got awfully hot and tired every day while walking around.
- Boy: That's no fun. Couldn't he do anything about that?
- Girl: Yes, he could. A Spanish person told him to take a siesta every day.
- Boy: What's a siesta?
- Girl: It's like taking a nap in the afternoon. People like to take a siesta after lunch.
- Boy: I'll have to remember that when I visit Spain.

**Unit 12** Space

## Listening 1 p.96

- Eddie: We're studying the Solar System in school this week, Alice.
- Alice: I'll bet you're learning lots of neat things, Eddie.
- Eddie: We sure are. There are eight planets around the Sun.
- Alice: I thought Mars or Venus would be like the Earth.
- Eddie: No, that's not true. Mars is smaller than the Earth. Mars is very cold because it's far from the Sun.
- Alice: How about Venus?
- Eddie: It's too hot because it's very close to the Sun.

## Listening 2 p.97

A little girl is excited about visiting a planet. She's flying in a spaceship. She lands on a planet. The planet looks pretty rocky. She puts on a spacesuit to explore the planet. She also sees huge volcanoes in the distance. She's scared to go near them.
